## PERSONAL PROFILE

---

A proactive and solution-oriented Fullstack Developer with expertise in the Next.js, Laravel, and React ecosystems. Experienced in designing and developing complete web applications, from UI to business logic, and a proven ability to transform manual processes into efficient digital solutions.

## EDUCATION HISTORY

---

**INSTITUT TEKNOLOGI SUMATERA** – Lampung Selatan, Indonesia  
*Bachelor of Computer Science – IPK 3.4/4.0*

Aug 2022 – Sep 2026 (Expected)

- Mata Kuliah Relevan: Web Programming, Database, Algorithms and Data Structures, Software Engineering.

## EXPERIENCE

---

**DISKOMINFO KOTA BANDAR LAMPUNG** – Bandar Lampung, Indonesia  
*Fullstack Developer Intern*

Jun 2025 – Jul 2025

- Solved the problem of manual internship registration by developing SIMAMANG, a full-stack web application using Laravel, React, and Inertia.js.
- Addressed the inefficiency of correspondence management by building SIMAS, an electronic correspondence system that automates workflows, reducing paper usage and processing time.
- Improved operational effectiveness by transforming manual processes into digital solutions, which increased productivity and transparency.
- Technologies Used: Laravel, React.js, Inertia.js, MySQL, RESTful API, Git.

## BAP PHOTOGRAPHY PROJECT

Jan 2025 – Feb 2025

*Freelance Fullstack Developer*

- Met client needs by designing and developing BAP Photography, a comprehensive website for a photography business.
- Developed key features, including portfolio, about, documentation, workshop, and contact pages, to enhance the client's online presence.
- Implemented a workshop management system, enabling the admin to manage events and sales independently.
- Built a workshop ordering flow with PayPal integration for secure online transactions.
- Integrated an automated email service using Resend for order notifications, improving client communication.
- Technologies Used: Next.js, Tailwind CSS, PayPal API, Resend, CMS headless, and Firebase.
- Result: Successfully transformed the client's business from manual processes to an efficient digital platform, which enhanced professionalism and online revenue potential.

## TECHNICAL SKILLS

---

- Frontend: React.js, Next.js, HTML, CSS, JavaScript, Tailwind CSS
- Backend: Laravel (PHP), Express.js
- Database: MySQL, Firebase
- Tools & Platform: Git, GitHub

## ADDITIONAL

---

- Languages: Indonesian (Native), English (Conversational)
